

Flitestar: AirbusA321neoLR

A state-of-the-art aircraft for the modern passenger.

Flitestar is redefining the air travel experience with the brand new A321neoLR, spearheading our drive toward sustainable travel

Available for ad-hoc medium/long-haul charter flights as well as ACMI, the Airbus A321neoLR is a ground-breaking aircraft offering a unique capability and range while offering one of the most environmentally-friendly flights in the sky offering a 15% fuel-saving and a significant reduction in carbon emissions. as well as low interior noise. Aerodynamic-enhancing Sharklets on the wings and fuel-efficient engines ensure outstanding environmental performance

Ideally suited to transatlantic routes, the A321LR allows airlines to tap into new long-haul markets that were not previously accessible with current single-aisle aircraft.

The aircraft was delivered new from the factory in October 2020.
